TECHNICAL SKILLS

- **Programming Languages:** Python, C
- **Web Development:** HTML, CSS, React, Next.js, Node.js
- **Databases:** MySQL, MongoDB
- **AI / ML:** Machine Learning, Computer Vision, OpenCV, TinyML
- **Tools:** Git, VS Code, Figma, Excel, Tableau

EXPERIENCE

Artificial Intelligence Virtual Intern | CodSoft

- Developed an image captioning application that generates captions for images using AI.
- Built a movie recommendation system that suggests movies based on user preferences.
- Created a real-time face detection and recognition application using Python and OpenCV.
- Gained practical experience in Artificial Intelligence, Machine Learning, Computer Vision, and Python development.

PROJECTS

Daily Dine – Restaurant Application

2025 – Present

- Designed responsive user interfaces in Figma and built them with Next.js as Front-End Developer in a team of 7–8.
- Improved digital menu access and user interaction for restaurant customers.

TinyML-Based Machine Health Monitoring System

2025 – Present

- Collected sensor data to monitor machine condition in real time.
- Deployed a lightweight ML model on an ESP32 for low-power edge inference without cloud processing.
- Enabled early fault detection to support predictive maintenance.

RoadGuard – AI-Based Pothole Detection

2025

- Developed an AI-based pothole detection project focused on road safety using Python.
- Tested and debugged core logic to ensure reliable performance.

EDUCATION

B.E. in Artificial Intelligence & Machine Learning, VTU

2023 – 2027
